ABOUT ME

Having left university with 5 years of photography education, I soon found myself working as a cruise ship photographer. Not only did I take photos of passengers, but I worked heavily behind the scenes. TSP offered a professional environment where I could edit, retouch and print images.

Moving from there, while I originally taught English as a way to stay in Spain, I stumbled upon Ticketbis where I could use a lot of the talents that I learned on the ship. As Content Editor I frequently created small images and logos for the site, alongside learning HTML.

Once Ticketbis was bought by StubHub, I was promoted to UK and Intl. Partnership CCL Coordinator. This, in part, was due to my knowledge regarding imagery rights, HTML knowledge and predisposition to doing my best at work.

My role has since diverged into dealing with imagery requests, making sure partners provide imagery with the correct rights in place, working with the Product team in sorting out landing pages, and helping to define HTML asks in greater detail.
