ABOUT ME

I am not one to wax lyrical about my knowledge and skills, so all I will say is I am confident at what I do, yet never the type to brag or gloat. I like to tinker alot which leads me to learn new technologies rapidly.

I have made a point of trying to lead a life free of social media while I know this leads many to see me as old, weird and not "with-it", it's allowed me to keep an objective perspective regarding many topics. I do love a bit of reddit though.

My interests include art and photography, travelling the world and losing spectacularly at the odd gaming session. I've gained an appreciation for good web design, and actually enjoy coding when given the chance.
